Mr. Jack Cleary
Project Coordinator for Harcros Chemicals
T H Agriculture & Nutrition Company
L.L.C.
15313 West 95th Street
Lenexa, KS 66219

Dear Mr. Cleary:

RE: Work Plan for Design and Installation of Additional Extraction Well
and Groundwater Treatment Facilities for
Harcros Chemicals Inc.
Kansas City, KS
EPA RCRA ID No. KST210010062
Docket No. VII-90-H-0028

This letter is addressed to you as the designated Project Coordinator for Harcros Chemicals under the referenced Administrative Order on Consent (AOC). The U. S. Environmental Protection Agency (EPA) has received and reviewed the document titled, "Work Plan for Design and Installation of Additional Extraction Well and Groundwater Treatment Facilities," dated June 18, 2004. This work plan was submitted by Respondents pursuant to a 2001 Amendment to the AOC to allow for compliance with the performance standard for hydraulic control of contaminated groundwater set forth in the Amendment.

Based on currently available information, EPA believes that performance of the tasks outlined in work plan should allow the Respondents under the 2001 Amendment to the AOC to satisfy the performance standard for hydraulic control of contaminated groundwater set forth in the Amendment. Accordingly, EPA hereby approves the Respondents' proposed June 18, 2004, work plan. Under Section IX, Paragraph 7 of the AOC, the approved work plan is hereafter incorporated into, and fully enforceable by EPA, under the referenced AOC.

As of the date of this approval letter, the work plan must be implemented in accordance with the schedule contained in the work plan. If you have any questions pertaining to this matter, please contact me at (913) 551-7627.

Sincerely,

Patricia A. Murrow
Project Manager
RCRA Corrective Action and Permits Branch
Air, RCRA, and Toxics Division
